Patient name _____ Date _____

Fatty Liver Disease

MASLD, the condition formerly called NAFLD

Fatty liver disease means extra fat is stored inside liver cells, and it is **not caused by heavy drinking**. In 2023, liver specialists renamed it **MASLD** (metabolic dysfunction-associated steatotic liver disease) because it goes hand in hand with insulin resistance, belly fat, high triglycerides and high blood pressure. It is the most common liver condition in the world, affecting about **1 in 3 adults**, and most people feel nothing. Caught early, it is often reversible.

HOW FATTY LIVER PROGRESSES

WHAT RAISES YOUR RISK

- Sugary drinks, added sugar
- Insulin resistance or diabetes
- Weight carried at the belly
- High blood pressure
- High blood fats (triglycerides)
- PCOS (polycystic ovary syndrome)
- Family history and genes
- Gut imbalance (dysbiosis)

ASK ABOUT THESE LIVER CHECKS

Fatty liver is usually silent. Ask your pharmacist which checks fit you.

1 Liver enzymes (ALT, AST)

A routine blood test. High levels can mean the liver is irritated, but normal levels do not rule out fatty liver. Many labs' "normal" ranges run higher than ideal.

2 FIB-4 score

Worked out from your age and routine labs (ALT, AST, platelets) to estimate the risk of advanced scarring.

- **Under 1.3: low risk**
- **1.3 or higher: step 3 is next**

3 FibroScan (elastography)

A no-needle scan that measures liver stiffness (scarring) and liver fat. Often the next step when FIB-4 is 1.3 or higher.

- **Under 8 kPa: low risk**
- **8 kPa or more: see a liver specialist**

Two or more metabolic risks, like prediabetes or belly fat? Repeat FIB-4 every 1 to 2 years.

AASLD practice guidance, 2023

Lifestyle Recommendations

Eat Mediterranean
Vegetables, lean protein, olive oil, nuts and fish. Cut sugary drinks, juice and refined carbs: they turn into liver fat fastest.

Lose 7 to 10 percent
Losing 7 to 10 percent of body weight is the change most tied to clearing liver fat and calming inflammation.

Move every day
150 minutes a week of brisk walking plus 2 strength days. A 10-minute walk after meals blunts the sugar spike.

Go easy on alcohol
Even though alcohol did not cause it, alcohol adds to the liver's load. Keep it minimal or skip it.

Nutrient Solutions

What your body needs, and the NutriDyn formula that delivers it

Steady sugar and fat
berberine

START HERE

Berberine Pro
90 capsules

- Supports healthy glucose metabolism
- Supports healthy lipid levels already in a normal range

IN EACH SERVING
100 mg dihydroberberine + 84 mg organic cinnamon extract per capsule

1 capsule 3 times daily
before meals

Help the liver process fat
lipotropic nutrients

Lipo-Flow
Practitioner exclusive · tablets

- Supports normal fat metabolism in the liver
- Supports healthy bile flow

IN EACH SERVING
Lipotropic liver formula with 200 mg beet root per 2 tablets

2 tablets with meals
up to 3 times daily

Balance fats
omega-3 fatty acids, EPA and DHA

Omega Pure EPA-DHA 1000
120 softgels

- Supports healthy triglyceride levels
- Supports a healthy inflammatory response

IN EACH SERVING
1,000 mg EPA + DHA per softgel (730 mg EPA, 270 mg DHA)

1 softgel daily
with your evening meal

Protect cells
alpha lipoic acid, NAC, carnitine

Mito Recharge
90 capsules

- Antioxidants that work in water and fat
- Supports cellular energy

IN EACH SERVING
Per 3 capsules: 200 mg acetyl-L-carnitine, 100 mg NAC, 45 mg R-lipoic + 75 mg alpha lipoic acid, 100 mg resveratrol, 100 mg EGCG

3 capsules daily
with breakfast

YOUR DAILY RHYTHM

Morning
Berberine Pro 1 capsule
Lipo-Flow 2 tablets
Mito Recharge 3 capsules

Evening meal
Berberine Pro 2 capsules
Lipo-Flow 2 tablets
Omega Pure EPA-DHA 1000 1 softgel

Bedtime
nothing

The full plan is **11 pills a day**. Overwhelmed? Start with the **Start here** pick, then add one product a week.

PHARMACIST CHECK

- **Statins:** often used alongside. They can lower CoQ10. Ask whether CoQ10 fits.
- **Metformin** long term can lower B12. Ask for a B12 check once a year.
- **Acetaminophen:** stay within label limits and never combine it with alcohol.
