Gut Overgrowth

Yeast, parasites and SIBO

Your gut is home to trillions of microbes, and almost all of them live in the **colon** (large intestine). Stomach acid, the gut's sweeping waves and your immune system keep the **small intestine** nearly free of bacteria and keep yeast and parasites in check. When those defenses slip, microbes can **overgrow**: bacteria crowd the small intestine (**SIBO**), **Candida** yeast multiplies, or a **parasite** moves in. A test ordered by your provider shows which one is behind your symptoms.

KEY

Friendly bacteria · Overgrowth bacteria · Yeast (Candida) · Gas: hydrogen, methane · Parasite egg · Villi: gut lining

Three kinds of overgrowth

Testing shows which one you have. Ask your provider which test fits you.

SIBO
small intestinal bacterial overgrowth

CLUES
- Bloating and gas after meals
- Belly pain, diarrhea
- Constipation (methane type)

RISKS
- Low stomach acid, acid blockers
- A slow gut (diabetes, opioids)
- Past belly surgery

TEST Breath test (see below)

Yeast
Candida, normally in small numbers

CLUES
- White mouth patches (thrush)
- Repeat vaginal yeast infections

RISKS
- Antibiotics, steroid medicines
- High blood sugar
- A weakened immune system

TEST Stool test (culture or DNA panel)

Parasites
such as Giardia or pinworm

CLUES
- Diarrhea, cramps and gas
- Greasy stools that float
- Itchy bottom at night (pinworm)

RISKS
- Untreated lake or stream water
- Travel, swimming, child care
- Close contact, pets

TEST Stool test (tape test for pinworm)

Breath test: know your numbers

After an overnight fast you drink a sugar solution, then breathe into tubes for about 2 hours. Misplaced bacteria turn the sugar into gas, measured in ppm (parts per million).

HYDROGEN	METHANE	My result
rises 20 ppm or more within 90 minutes: SIBO	**10 ppm or more** at any point: methane type	

⚠ **Get checked soon** for blood or black stools, a high fever or weight loss you did not try for. Confirmed parasites usually need medicine.

The 5R gut plan

Repair: see the **Intestinal Permeability** sheet.

1. **REMOVE** clear the overgrowth — THIS SHEET
2. **REPLACE** stomach acid, enzymes
3. **REINOCULATE** friendly bacteria
4. **REPAIR** heal the lining
5. **RETAIN** keep the balance

Lifestyle Recommendations

Starve it, sweep it, and keep new invaders out

Cut the sugar
Skip added sugar, sweet drinks, alcohol and junk food during the plan.

Space your meals
No grazing: the gut's cleaning waves run between meals. Stop eating 2 hours before bed.

Wash, cook, filter
Wash hands and produce, cook meat through, and skip untreated lake or stream water.

Eat calm, chew well
Slow, unhurried meals give stomach acid and enzymes a head start.

Review acid blockers
They lower stomach acid, a key defense. Never stop one without your prescriber.

Nutrient Solutions

What your body needs, and the NutriDyn formula that delivers it

Balance the flora
berberine, Oregon grape

START HERE

Spectrum BR
90 or 180 tablets

- Supports a healthy balance of gut bacteria and yeast
- NutriDyn's Remove-step pick in the 5R plan

IN EACH SERVING
Per 2 tablets: 400 mg berberine HCl, 300 mg six-herb blend, 70 mg Oregon grape root, 30 mg coptis root

2 tablets twice daily
with meals

Plant oils + enzyme
oregano oil and ginger

Nutricidin
60 or 120 softgels

- Oregano oil and ginger support balanced gut flora
- Adds a protein-digesting enzyme and EDTA

IN EACH SERVING
Per 2 softgels: 400 mg calcium EDTA, 250 mg ginger root, 100 mg oregano oil, 30,000 SPU serratiopeptidase

1 softgel twice daily
with meals

Classic cleanse herbs
black walnut, wormwood

Paradex
Herbal formula · 90 capsules

- Supports a healthy intestinal environment
- Five traditional cleanse herbs

IN EACH SERVING
Per capsule: 250 mg black walnut hulls, 100 mg wormwood, 100 mg pau d'arco, 50 mg garlic, 50 mg pumpkin seed

1 capsule twice daily
with meals

A friendly yeast
S. boulardii probiotic

UltraBiotic S. boulardii
60 capsules

- Supports a balanced gut microbiome
- A yeast, so antibiotics do not wipe it out

IN EACH SERVING
5 billion CFU Saccharomyces boulardii (Lynside) per capsule

1 capsule at bedtime
2 hours from the herbs

Bind and carry out
apple pectin, chlorella

Binder Pro
60 or 120 capsules

- Binds unwanted compounds so they leave with the stool
- Take apart from medicines and other pills

IN EACH SERVING
Per 2 capsules: 500 mg apple pectin, 300 mg humic-fulvic carbon complex, 300 mg chlorella

2 capsules at bedtime
2 hours from medicines

YOUR DAILY RHYTHM

Morning
Spectrum BR 2 tablets
Nutricidin 1 softgel
Paradex 1 capsule

Evening meal
Spectrum BR 2 tablets
Nutricidin 1 softgel
Paradex 1 capsule

Bedtime
UltraBiotic S. boulardii 1 capsule
Binder Pro 2 capsules

The full plan is **11 pills a day**. Overwhelmed? Start with the **Start here** pick, then add one product a week.

PROVIDER CHECK

- **Test, then treat.** A breath or stool test shows what is overgrown, so your provider can match the plan and decide how long you stay on it.
- **Pregnant or breastfeeding?** Skip Spectrum BR, Nutricidin and Paradex. These herbal formulas are not for pregnancy or nursing.
- **On diabetes medicine or a blood thinner?** Berberine adds to sugar-lowering drugs, and garlic and pau d'arco can add to bleeding. Ask your provider first.
