Healing After Injury

Sprains, strains, whiplash and recovery from surgery

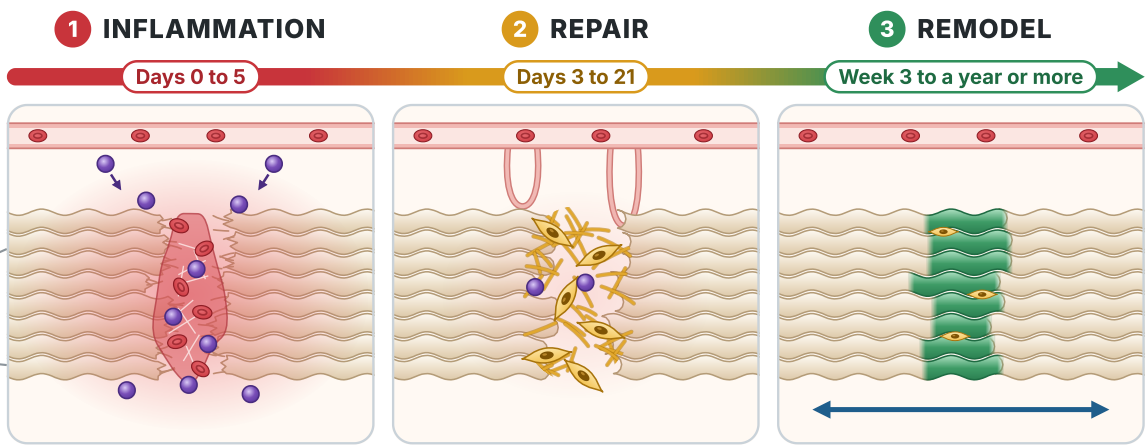

After a sprain, strain, whiplash or surgery, your body repairs the hurt tissue in three overlapping phases. **Inflammation** comes first, and it is part of healing. Next, repair cells lay down new **collagen**, the rope-like protein that ligaments and tendons are made of. Then, over months, the patch is **remodeled** and grows stronger. How you eat, sleep and move between visits helps each phase do its job.

THE THREE PHASES OF HEALING

WHIPLASH

A crash snaps the head back, then forward. Neck ligaments and muscles overstretch.

1 INFLAMMATION — Days 0 to 5

Torn fibers bleed and clot. Inflammation brings swelling and immune cells that clean up.

YOUR PART **Protect it.** Gentle motion as advised.

2 REPAIR — Days 3 to 21

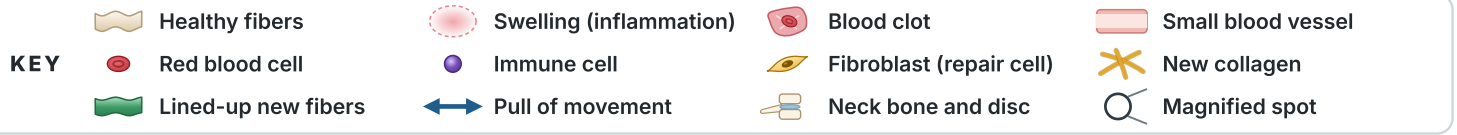

Repair cells (fibroblasts) lay down new collagen, first in a loose criss-cross.

YOUR PART **Move it gently.** Easy, pain-free range.

3 REMODEL — Week 3 to a year or more

Steady pull lines the new fibers up, so the patch grows stronger over many months.

YOUR PART **Load it.** Keep up your exercises.

WHAT CAN SLOW HEALING

Times above are typical. Bigger injuries and surgery take longer.

GET CARE RIGHT AWAY

Healing should get a little better week by week. Some signs cannot wait.

CALL 911 NOW

- **Chest pain** or sudden trouble breathing
- **After a crash or blow to the head:** a headache that keeps getting worse, repeated vomiting, slurred speech, confusion or unusual sleepiness
- **New weakness or numbness** with loss of bladder or bowel control

CALL YOUR DOCTOR THE SAME DAY

- **Calf pain or swelling** in one leg
- **Fever,** or redness, warmth or cloudy drainage at a surgery cut
- **New numbness or tingling** in an arm or leg
- **Pain or swelling getting worse** instead of better, or you cannot put weight on it

Lifestyle Recommendations

Protein every meal
A palm-size portion of fish, eggs, chicken or beans. Repair runs on protein.

Color for vitamin C
Citrus, kiwi, berries and peppers. Your body needs vitamin C to build collagen.

Sleep 7 to 9 hours
Short sleep slows repair. Keep a steady bedtime, even on weekends.

Move as advised
Gentle motion early, then your exercises. Load lines the new fibers up.

Skip smoking
Smoking starves healing tissue of oxygen. Keep alcohol low, too.

Nutrient Solutions

What your body needs, and the NutriDyn formula that delivers it

Balance inflammation
ginger, curcumin, boswellia + 3 herbs

START HERE

Inflam-Eze Plus
90 or 180 capsules

- Supports a healthy inflammatory response
- Supports joint and muscle comfort

IN EACH SERVING
Per 3 capsules: 800 mg ginger, 250 mg curcumin with fenugreek (CurQfen), 250 mg boswellia, 200 mg white willow bark, 150 mg hops, 60 mg devil's claw

3 capsules once daily
with food

Resolve inflammation
pro-resolving mediators from fish oil

PRM Resolve
60 or 120 softgels

- Supports the natural resolution of inflammation
- Omega-3 EPA and DHA for healthy tissue

IN EACH SERVING
Per 2 softgels: 400 mcg pro-resolving mediators (PRMs), 1,200 mg omega-3 with 580 mg EPA and 420 mg DHA

2 softgels daily
with your evening meal

Rebuild collagen
collagen peptides for tendon, ligament, bone

Collagen Renew
525 g · about 30 scoops

- Building blocks for tendons, ligaments and bone
- Pair with vitamin C, an hour before exercise

IN EACH SERVING
Per scoop: 17.5 g collagen peptides (FORTIGEL 5 g, FORTIBONE 5 g, TENDOFORTE 5 g, VERISOL 2.5 g), 15 g protein

1 scoop daily
in 8 oz of water or a drink

Relax tight muscles
magnesium, L-theanine, passion flower

Muscle Eze
90 capsules

- Helps relax muscle tissue
- Supports calmness at bedtime

IN EACH SERVING
Per 3 capsules: 200 mg magnesium (citrate), 100 mg calcium (lactate), 50 mg L-theanine, 40 mg passion flower

3 capsules at bedtime
may cause drowsiness

Nerve comfort
PEA + alpha lipoic acid

Nerve Eze
60 capsules

- Supports healthy nerve function
- PEA: a natural fat compound your body makes

IN EACH SERVING
Per capsule: 300 mg PEA (palmitoylethanolamide, as Levagen+), 150 mg alpha lipoic acid

1 capsule twice daily
morning and evening

YOUR DAILY RHYTHM

Morning
Inflam-Eze Plus 3 capsules
Collagen Renew 1 scoop
Nerve Eze 1 capsule

Evening meal
PRM Resolve 2 softgels
Nerve Eze 1 capsule

Bedtime
Muscle Eze 3 capsules

The full plan is **10 pills and 1 scoop a day**. Overwhelmed? Start with the **Start here** pick, then add one product a week.

PROVIDER CHECK

- **Blood thinner, aspirin or NSAIDs?** White willow (a salicylate), ginger and fish oil may add to bleeding risk. Check with your provider first.
- **Surgery coming up?** Your surgeon may want herbs and fish oil stopped 1 to 2 weeks before.
- **Muscle relaxers, opioids, sleep aids:** Muscle Eze may add drowsiness. **Diabetes medicine:** alpha lipoic acid can lower blood sugar.
