Patient name _____ Date _____

Nerve Pain and Neuropathy

Burning, tingling or numb feet and hands

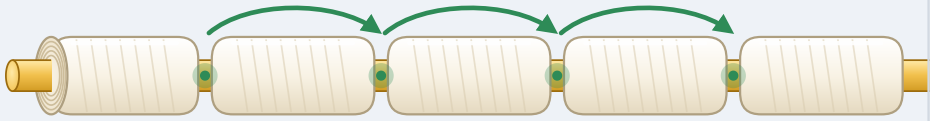

Peripheral neuropathy means the nerves that carry messages to your hands and feet are damaged. The longest nerves, the ones that reach your toes, are hit first, so it often starts as burning, tingling or numb feet. More than **20 million Americans** have it. **High blood sugar is the top cause**, and many others can be found and fixed.

WHERE YOU FEEL IT

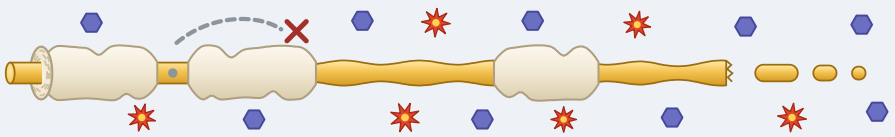

INSIDE ONE NERVE FIBER *magnified*

HEALTHY NERVE — *signals travel fast and clear*

A thick coat (myelin) wraps the fiber, so signals jump fast from gap to gap.

DAMAGED NERVE — *signals slow, misfire or stop*

High sugar, low B12 and "rust" (oxidative stress) wear down the coat and the fiber.

KEY

- Nerves and nerve fiber
- Oxidative stress ("rust")
- Myelin coat
- Extra blood sugar (glucose)
- Nerve signal
- Numb or tingling area

WHAT YOU MAY FEEL

- **Burning** or sharp, electric jolts
- **Numb**, as if wearing socks or gloves
- **Poor balance**, stumbles and falls
- **Weak** muscles or cramps
- **Tingling**, pins and needles
- Often **worse at night**
- Cuts or blisters you **do not feel**
- Sometimes **no signs** at first

COMMON CAUSES

- **High blood sugar:** diabetes or prediabetes **TOP CAUSE**
- **Heavy alcohol** use
- **Low thyroid** (hypothyroidism)
- **Infections** or autoimmune disease
- **Low vitamin B12**, as with metformin or acid blockers
- **Chemotherapy** and some other medicines
- **Kidney disease**
- **Family genes**

Ask for these checks

New numbness, tingling or burning? These tests find the most common causes, and many can be fixed.

Blood sugar A1c

NORMAL	PREDIABETES	DIABETES
under 5.7%	5.7 to 6.4%	6.5% or more

A normal A1c? A 2-hour glucose test can still catch early sugar trouble.

My A1c _____

Vitamin B12

Low or borderline? An **MMA** test can show if it is really low. On metformin or an acid blocker: test yearly.

My B12 _____

Thyroid TSH

An underactive thyroid can cause tingling too, and it is easy to test.

My TSH _____

Foot touch test

A soft nylon thread pressed on your feet (10-gram monofilament), **every year**.

Date _____

Your provider may also check folate, a blood count, kidney and liver tests and a blood protein test. ADA and American Academy of Neurology guidance

⚠ **Get care right away** for numbness or weakness that comes on fast, spreads over days or affects one side only, or for a foot sore that will not heal or a red, hot, swollen foot. **Sudden weakness on one side, a drooping face or slurred speech: call 911.**

Lifestyle Recommendations

Protect your nerves and your feet

Steady sugar
Protein and veggies first, fewer sweets.

Move most days
Walk, bike or swim. Practice balance.

Check your feet
Daily: look for cuts, blisters, red spots.

Guard your feet
No bare feet. Test bath water by elbow.

Limit alcohol
Alcohol is toxic to nerves. Keep it low.

Stop smoking
Linked to nerve damage and slow healing.

Nutrient Solutions

What your body needs, and the NutriDyn formula that delivers it

Calm nerve signals
PEA + alpha lipoic acid

START HERE

Nerve Eze
60 capsules

- Supports healthy nerve function
- PEA is a fat-based messenger your body makes too

IN EACH SERVING
300 mg PEA (palmitoylethanolamide, as Levagen+) and 150 mg alpha lipoic acid per capsule

1 capsule twice daily
morning and bedtime

Steady blood sugar
dihydroberberine, chromium, ALA

Gluco IR
150 capsules · 30 servings

- Supports healthy glucose metabolism
- With Nerve Eze: 600 mg of ALA a day

IN EACH SERVING
100 mg dihydroberberine (GlucoVantage), 300 mg alpha lipoic acid, 500 mg Ceylon cinnamon, 600 mcg chromium, 200 mg gymnema, green tea

5 capsules daily
with meals

Feed the nerve coat
vitamin B12 as methylcobalamin

B12 Pro
60 quick-dissolve tablets

- Supports healthy myelin, the nerve's coat
- Metformin and acid blockers can lower B12

IN EACH SERVING
5,000 mcg vitamin B12 as methylcobalamin per quick-dissolve tablet

1 tablet daily
let it dissolve in your mouth

The B-vitamin team
active folate, B6 and B12

Methyl Complete
120 capsules

- Active forms, ready for your body to use
- Supports healthy homocysteine levels

IN EACH SERVING
Per 2 capsules: 1 mg B12 (methyl + adenosyl), 800 mcg DFE folate as L-5-MTHF, 10 mg P5P, 700 mg TMG, 500 mg NAC

2 capsules daily
with breakfast

Nerve membranes
omega-3s, EPA and DHA

Omega Pure EPA-DHA 1000
120 softgels

- Building blocks of nerve cell membranes
- Supports a healthy inflammatory response

IN EACH SERVING
1,000 mg EPA + DHA per softgel (730 mg EPA, 270 mg DHA)

1 softgel daily
with your evening meal

YOUR DAILY RHYTHM

Morning
Nerve Eze 1 capsule
Gluco IR 3 capsules
B12 Pro 1 tablet
Methyl Complete 2 capsules

Evening meal
Gluco IR 2 capsules
Omega Pure EPA-DHA 1000 1 softgel

Bedtime
Nerve Eze 1 capsule

The full plan is **11 pills a day**. Overwhelmed? Start with the **Start here** pick, then add one product a week.

PROVIDER CHECK

- **Metformin or an acid blocker** (like omeprazole or famotidine) for years? Both can lower B12. Ask your provider for a B12 test every year.
- **On diabetes medicine?** Gluco IR (berberine plus alpha lipoic acid) can lower blood sugar further. Check it more often and tell your prescriber.
- **Vitamin B6 adds up.** Methyl Complete has 10 mg, and too much B6 can itself cause tingling. Bring every bottle so your provider can add up your B6.

Special considerations for you:
