

# RUNNING YOUR PRACTICE ON NUTRIDYN

WITH ASHER

---

Some practices hand a patient a plan and hope. The practices we work with hand a plan that **carries itself**: the order, the refill, the handout, and the follow-through are already built. This page is what that looks like.

## "THE PLAN STALLS AT CHECKOUT"

**Your patients order from a storefront that codes every dollar to your practice, with zero inventory on your shelf and zero margin lost to a reseller.**

We set up your practice storefront and put the link and QR wherever your patients already are: the handout, the front desk, the follow-up email.

## "BOTTLE TWO NEVER HAPPENS"

**Autoship turns your recommendation into a routine, so compliance stops depending on a patient remembering to walk back in.**

We enroll the protocol on autoship at the first order. Refills happen from home, and the plan keeps running between visits.

## "NOBODY HAS TIME TO EXPLAIN EVERY PROTOCOL"

**We build the patient handouts, dosing sheets, and staff tools with your practice name on them, so the education is done before the visit ends.**

Research-grounded, patient-language, ready to hand across the desk. Your staff get a sheet to work from, not a verbal summary to remember.

## "REPS DISAPPEAR AFTER THE FIRST ORDER"

**You get a same-day answer from a rep who works like extended staff, and we flag a supply issue before you ever hit it at order time.**

One email reaches us. Referrals, logistics, a protocol question, a substitution when stock moves: handled the day you ask.

## "MAKE THE LEARNING COUNT"

**Our seminars and certification sponsorships are built around real research and continuing education, because the doctors we serve keep growing.**

Live events, study-cited briefings, and functional nutrition certification cohorts we sponsor for Georgia practitioners.

## WHO THIS MAKES YOU

## THE PRACTICE THAT FINISHES THE PLAN

Patients leave with a protocol that completes itself. Staff run the storefront without you in the loop. And the nutrition side of your practice becomes something you are known for, not something you manage.

**Email us. We will set up your storefront this week.**
