Patient name _____ Date _____

Joint Pain and Osteoarthritis

Knees, hips and hands

Osteoarthritis (OA), the most common arthritis, changes the whole joint: the smooth **cartilage** on the bone ends thins and cracks, bone **spurs** grow at the joint's edges, and the lining can swell. It hits **knees, hips and hands** most. About **595 million people** had it in 2020, and the number is rising. Moving more and carrying less weight help most people stay active.

HOW IT CAN FEEL

- Pain with use (stairs, kneeling, opening jars) that eases with rest
- Brief stiffness on waking or after sitting still
- Creaking, grinding or clicking as it bends
- Some swelling, or a joint that feels unsteady
- Hard knobs on the finger joints
- A sore hip often aches in the groin or buttock

GET CHECKED PROMPTLY IF

- A **hot, red, very swollen** joint, above all with a fever: **get care the same day**
- Morning stiffness **over 30 minutes**, or several swollen joints at once
- It began with a **fall or injury**, or is worsening fast
- It **suddenly locks or gives way**, or **changes shape fast**

WHAT RAISES YOUR RISK

Getting older · Extra body weight · An old joint injury · Being a woman · Family history · Heavy lifting or kneeling work · Weak thigh muscles

GOOD TO KNOW

1 lb → 4 lb
Each pound you lose takes about **4 pounds** of load off your knee with every step.

Where OA strikes
Red dots: knees, hips and hands most; also the spine and big toe.

150 min
a week of walking, cycling or water exercise, plus **2 days** of strength work.

Lifestyle Recommendations

Move most days
Moving feeds cartilage: walk, cycle or swim 150 minutes a week.

Build strength
Thigh and hip work 2 days a week takes load off the joint.

Lighten the load
Each pound lost takes about 4 pounds off your knees with every step.

Tai chi or yoga
Slow, steady moves ease stiffness and build balance.

Food for joints
Mediterranean style: fish, olive oil, beans, nuts, colorful plants.

Heat and support
Heat for stiffness, ice after a flare, a cane on your good side.

Nutrient Solutions

What your body needs, and the NutriDyn formula that delivers it

START HERE

Inflammatory balance
ginger, curcumin, boswellia

Inflam-Eze Plus
90 or 180 capsules

- Supports a healthy inflammatory response ◆
- Supports joint comfort and movement ◆

IN EACH SERVING
3 capsules: ginger 800 mg, curcumin-fenugreek blend (CurQfen) 250 mg, boswellia 250 mg, white willow 200 mg, hops 150 mg, devil's claw 60 mg

3 capsules once daily
with food

Building blocks
glucosamine, MSM, green-lipped mussel

Chondro-Relief Intensive Care
120 capsules

- Provides raw materials for cartilage and joint fluid ◆
- Supports joint tissues ◆

IN EACH SERVING
4 capsules: glucosamine HCl 500 mg, chondroitin sulfate 400 mg, MSM 1 g, hyaluronic acid 100 mg, green-lipped mussel 1 g, plus vitamin C, manganese

4 capsules daily
with your evening meal

Joint comfort
UC-II undenatured collagen

Joint Eze
60 capsules

- UC-II blend, 40 mg a day in 2 capsules
- Supports joint comfort and flexibility ◆

IN EACH SERVING
1 capsule: undenatured collagen blend (UC-II) 20 mg, hops extract 50 mg, magnesium 37.5 mg

1 capsule twice daily
with food

Collagen support
collagen peptides

Collagen Renew
525 g · about 30 scoops

- Supports cartilage, tendons and ligaments ◆
- Pair it with a vitamin C food, like an orange

IN EACH SERVING
1 scoop: 17.5 g bovine collagen peptides (FORTIGEL, FORTIBONE and TENDOFORTE 5 g each, VERISOL 2.5 g)

1 scoop daily
in 8 oz water or a smoothie

Willow-free option
curcumin on its own

Curcumin 400X
60 softgels

- A curcumin pick without willow bark
- Supports a healthy inflammatory response ◆

IN EACH SERVING
2 softgels: BioCurc turmeric extract 800 mg

2 softgels daily
instead of Inflam-Eze Plus

YOUR DAILY RHYTHM

Morning
Inflam-Eze Plus
3 capsules
Joint Eze 1 capsule
Collagen Renew
1 scoop

Evening meal
Chondro-Relief Intensive Care
4 capsules
Joint Eze 1 capsule

The full plan is **9 pills and 1 scoop a day**.
Overwhelmed? Start with the **Start here** pick, then add one product a week.

PHARMACIST CHECK

Keep taking your medicines.

- **On a blood thinner, or surgery coming up?** Ask your pharmacist before Inflam-Eze Plus, Curcumin 400X or Chondro-Relief Intensive Care: you may need to pause them.
- **Inflam-Eze Plus has willow bark, a cousin of aspirin.** Aspirin allergy? Skip it; Curcumin 400X is willow-free. On aspirin, ibuprofen or naproxen? Ask your pharmacist.
- **Liver or gallbladder trouble, or a stomach ulcer?** Ask your pharmacist before Inflam-Eze Plus, Curcumin 400X or Chondro-Relief Intensive Care. Yellow skin or eyes, or dark urine? Stop them and call your doctor.
- **Shellfish allergy?** Skip Chondro-Relief Intensive Care: it has green-lipped mussel.
- **Red-meat (alpha-gal) allergy?** Skip Collagen Renew (beef). Chondro-Relief Intensive Care and Curcumin 400X may contain cow or pig gelatin or chondroitin: ask your pharmacist.
- **Pregnant or nursing?** Skip Joint Eze and Inflam-Eze Plus (willow bark); ask your pharmacist about the rest. **Already take a multivitamin?** Chondro-Relief Intensive Care adds manganese: ask your pharmacist.
