Patient name _____ Date _____

Mold Illness

Mycotoxin exposure and recovery

Mold grows wherever water lingers: a slow roof leak, a damp crawl space, an overflowing AC drip pan. Some molds make **mycotoxins**, natural toxins carried on spores and dust. Damp, moldy homes raise the chances of coughing, wheezing and asthma symptoms by about **30 to 50 percent**, and many people also report tiredness, headaches and brain fog. The signs are broad, so mold is easy to miss. Recovery starts with removing the exposure.

BREATHING AND ALLERGY

Stuffy nose · Cough, wheeze · Itchy, red eyes · Asthma flares

MANY PEOPLE ALSO REPORT

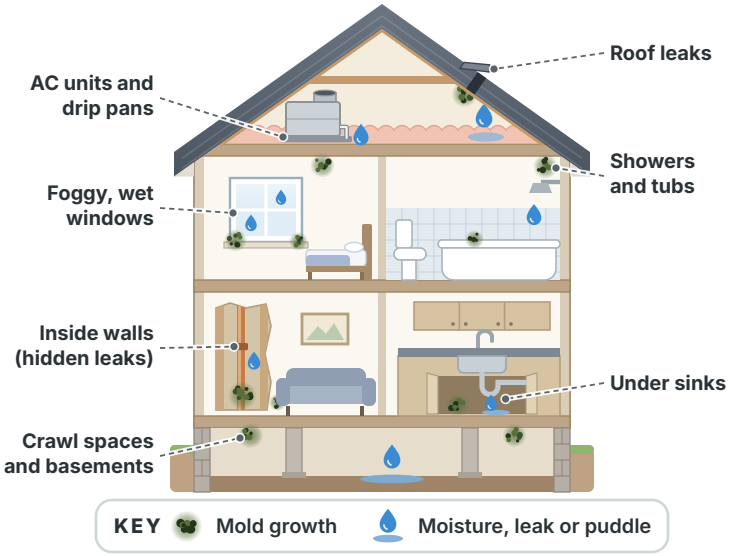

Fatigue · Brain fog · Headaches · Joint aches

YOUR RECOVERY, IN ORDER

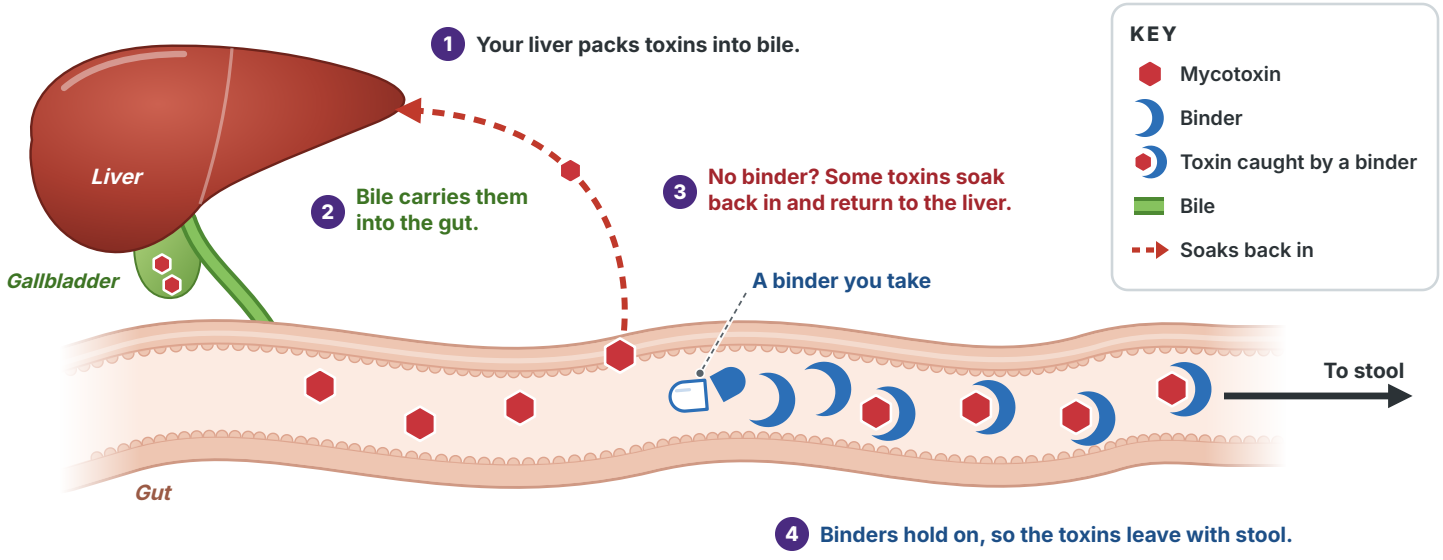

1. **Remove the exposure**
   Find and fix the water first. Dry any leak within 24 to 48 hours. Mold over 10 square feet? Hire a pro.
2. **Keep bile flowing**
   Bile carries toxins out of the liver. Regular meals with a little healthy fat keep it moving.
3. **Bind toxins in the gut**
   Fiber and binders hold on to toxins so they leave with stool. Aim for an easy bowel movement every day.
4. **Check the sinuses**
   Stuffy long after you leave the building? Ask a clinician whether your sinuses need care too.
5. **Treat fungal overgrowth only if found**
   Antifungal care is for when a clinician confirms it.

1 in 5 U.S. asthma cases is tied to dampness and mold at home, researchers estimate.

WHERE MOLD HIDES AT HOME

WHY BINDERS MATTER

Lifestyle Recommendations

Don't wait
Start the plan while home and work are checked for mold.

Dry the air
Keep indoor humidity at 30 to 50 percent. A dehumidifier helps.

Filter it
HEPA air purifiers and HEPA vacuums trap mold spores.

Limit risky foods
Peanuts, corn, stored grains and dried fruit can carry mycotoxins.

More fiber
Fiber holds on to toxins in bile. Aim for about 30 g a day.

Stay regular
Binders leave with stool. Constipated? Ask about magnesium citrate.

Nutrient Solutions

What your body needs, and the NutriDyn formula that delivers it

START HERE

Bind toxins in the gut
pectin, Humiplex, chlorella

Binder Pro
60 or 120 capsules

- Helps carry toxins out with stool ◆
- No charcoal or clay

IN EACH SERVING
Per 2 capsules: 500 mg apple pectin, 300 mg humic-fulvic complex (Humiplex), 300 mg chlorella

2 capsules twice daily
between meals, as directed

Guard the gut lining
immune proteins from cows

GI Defend
75 g powder

- Supports a healthy gut barrier ◆
- Helps bind toxins in the gut ◆

IN EACH SERVING
Per scoop: 2.5 g ImmunoLin serum-derived bovine immunoglobulin protein isolate

1 scoop daily
in water, before breakfast

Keep bile flowing
artichoke, dandelion bitters

Lipo-Flow
180 tablets

- Promotes healthy bile flow ◆
- Supports healthy liver function ◆

IN EACH SERVING
Per 2 tablets: 400 mg artichoke, 250 mg dandelion, 200 mg beet, 150 mg inositol, 100 mg each of gentian, tangerine, taurine, methionine

2 tablets twice daily
with meals, as directed

Top up glutathione
the detox antioxidant

Liposomal Glutathione
60 mL liquid · 60 droppers

- Supports antioxidant health ◆
- Supports healthy glutathione levels ◆

IN EACH SERVING
Per dropper (1 mL): 100 mg reduced L-glutathione, in liposomes made with sunflower lecithin

1 dropper twice daily
with breakfast and supper

Fuel your cells
mitochondrial support

Mito Recharge
90 capsules

- Promotes healthy mitochondria ◆
- Supports healthy detox capacity ◆

IN EACH SERVING
Per 3 capsules: 200 mg acetyl-L-carnitine HCl, 75 mg alpha-lipoic + 45 mg R-lipoic acid, 100 mg each of CoQ10, NAC and EGCG, 250 mcg vitamin K1

3 capsules daily
with breakfast

YOUR DAILY RHYTHM

Morning
GI Defend 1 scoop before breakfast
Lipo-Flow 2 tablets
Liposomal Glutathione 1 dropper
Mito Recharge 3 capsules
Binder Pro 2 capsules, 2 hours after breakfast

Evening meal
Lipo-Flow 2 tablets
Liposomal Glutathione 1 dropper

Bedtime
Binder Pro 2 capsules, 2 hours after supper

The full plan is **11 pills, 1 scoop and 2 droppers a day**. Overwhelmed? Start with the **Start here** pick, then add one product a week.

PHARMACIST CHECK

Keep taking your medicines.

- **Binders can catch medicines and nutrients too.** Keep Binder Pro 2 hours from food, other supplements and every medicine.
- **On warfarin?** Vitamin K can weaken it: Mito Recharge has 250 mcg vitamin K1, and Binder Pro's chlorella adds some. Ask your pharmacist first, and tell whoever manages your warfarin.
- **Gallstones, a blocked bile duct, a stomach ulcer or a ragweed allergy?** Ask your pharmacist or your doctor before Lipo-Flow.
- **Prescribed an antifungal?** Many interact with other medicines. Show your pharmacist your full list, supplements included.
- **Pregnant, nursing or a liver problem?** Ask your pharmacist first (Mito Recharge has green tea extract).
  Beef or red-meat (alpha-gal) allergy? Skip GI Defend.
