Patient name _____ Date _____

# Lyme Disease

## and other tickborne infections

Lyme disease is the most common illness spread by ticks in the U.S.: an estimated **476,000 Americans** are diagnosed and treated for it each year. *Borrelia* bacteria pass from the bite of an infected blacklegged (deer) tick, and the same tick can carry other germs too. Avoiding bites is the best defense; early treatment is the next best.

## HOW IT SPREADS

### LYME DISEASE

***Borrelia burgdorferi***
the Lyme bacterium

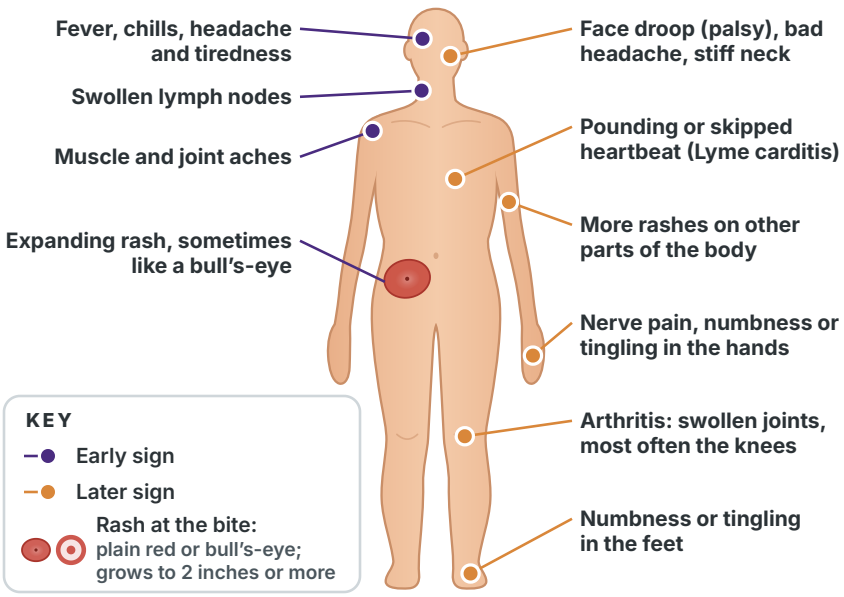

### IN GEORGIA

Lyme is reported far less here than in the Northeast, but deer ticks live here too. The tick people meet most is the **lone star tick**. It is not known to spread Lyme, but its bite can cause a rash that looks like it (STARI).

### OTHER INFECTIONS DEER TICKS CAN CARRY

| | |
|---|---|
| **Anaplasmosis** *bacterium* | **Babesiosis** *parasite* |
| **Hard tick relapsing fever** *bacterium* | **Powassan virus disease** *virus* |

## SYMPTOMS

**See a clinician promptly** if a rash, fever, aches or swollen joints follow a tick bite or time outdoors. Early antibiotics work best.

**Not everyone sees the tick.** Nymphs, poppy-seed small, spread most Lyme. Up to 3 in 10 people never get a rash. Many rashes are plain red, not a bull's-eye, and on darker skin a rash can be hard to see. Early Lyme can pass for the flu.

**ACTUAL SIZE** deer tick — **nymph** poppy seed — **adult** sesame seed

**After treatment,** some people have tiredness, pain or brain fog that lingers. Most get better with time, though it can take months. Focus on food, sleep and steady habits, and tell your clinician how you feel.

## KNOW YOUR TICKS adult females shown

**Blacklegged (deer) tick**
Black legs and shield, red-orange body. Eastern U.S., Georgia included. The main Lyme carrier.

**Lone star tick**
White dot on the female's back. Spreads ehrlichiosis and can trigger alpha-gal (red-meat) allergy.

**American dog tick**
White-marked shield. Spreads Rocky Mountain spotted fever: fever after a bite needs a clinician fast.

# Lifestyle Recommendations

Avoid the next bite, and stay on your medicine

### Dress for ticks
Light colors, pants in socks. Permethrin is for clothes, never skin.

### Repellent
EPA-registered: DEET, picaridin, IR3535 or oil of lemon eucalyptus.

### Dry, then shower
Dry clothes on high heat for 10 minutes. Shower within 2 hours.

### Check daily
Hair, ears, armpits, belly button, waist, groin, behind knees. Pets, too.

### Remove it right
Fine-tipped tweezers at the skin, pull straight up. Note the date.

### Worse on day 1?
Antibiotics killing germs can do that. Never stop them on your own.

# Nutrient Solutions

**General wellness support, not a treatment for any infection. Antibiotics come first.**

START HERE

## Gut support
with *S. boulardii*

**UltraBiotic Daily Multi-Strain**
30 or 60 capsules

- Supports a healthy gut microbiome ◆
- Antibiotics spare its yeast, not its bacteria

**IN EACH SERVING**
Per capsule: 30 billion CFU when made, 7 strains: 5 billion *S. boulardii* (a yeast) and six bacteria (*Lactobacillus*, *Bifidobacterium*, *Bacillus*)

**1 capsule at bedtime**
2 hours from antibiotics

## Immune support
colostrum immunoglobulins

**Immune PRP Pro**
120 capsules · contains milk

- Promotes healthy immune function ◆
- Supports the gut lining ◆

**IN EACH SERVING**
Per 4 capsules: 1,720 mg bovine colostrum, standardized to 30% IgG antibodies, with PRP, IgA, IgM and lactoferrin

**4 capsules twice daily**
morning and evening

## Inflammatory balance
ginger, curcumin, boswellia

**Inflam-Eze Plus**
90 or 180 capsules

- Promotes healthy inflammatory markers ◆
- Supports overall health and well-being ◆

**IN EACH SERVING**
Per 3 capsules: 800 mg ginger root; extracts: 250 mg CurQfen (curcumin with fenugreek fiber), 250 mg boswellia, 200 mg white willow bark, 150 mg hops, 60 mg devil's claw

**3 capsules once daily**
with breakfast

## Detox support
liposomal glutathione

**Liposomal Glutathione**
60 mL · contains alcohol

- Supports healthy glutathione levels ◆
- Provides antioxidant and detox support ◆

**IN EACH SERVING**
100 mg reduced L-glutathione per 1 mL dropper, in liposomes made with sunflower lecithin

**1 dropper twice daily**
shake well

## Cellular energy
mitochondrial support

**Mito Recharge**
90 capsules

- Supports your cells' energy production ◆
- Promotes healthy antioxidant status ◆

**IN EACH SERVING**
Per 3 capsules, including 300 mg taurine, 200 mg acetyl-L-carnitine, 100 mg CoQ10, 75 mg alpha-lipoic + 45 mg R-lipoic acid, 75 mg magnesium, 250 mcg vitamin K1

**3 capsules at bedtime**
with a snack

## YOUR DAILY RHYTHM

**Morning**
Immune PRP Pro
4 capsules
Inflam-Eze Plus
3 capsules
Liposomal Glutathione
1 dropper

**Evening meal**
Immune PRP Pro
4 capsules
Liposomal Glutathione
1 dropper

**Bedtime**
UltraBiotic Daily Multi-Strain
1 capsule
Mito Recharge
3 capsules with a snack, 2 to 3 hours from doxycycline

The full plan is **15 pills and 2 droppers a day**. Overwhelmed? Start with the **Start here** pick, then add one product a week.

## PROVIDER CHECK

**Keep taking your medicines.**

- **Doxycycline:** take it 2 to 3 hours apart from calcium, magnesium (Mito Recharge has some), iron, zinc and antacids, which block it.
- **On a blood thinner, daily aspirin or clopidogrel?** Inflam-Eze Plus (ginger, curcumin, willow bark) can add to bleeding risk. Doxycycline can make warfarin stronger; Mito Recharge's vitamin K1 can make it weaker: ask about an INR (clotting) test.
- **Aspirin-like willow bark:** Inflam-Eze Plus is not for children, teens or aspirin allergy.
- **Green tea in Mito Recharge:** take with food. Liver problem? Ask your provider first.
- **Probiotic:** take UltraBiotic at least 2 hours apart from each antibiotic dose. Its *S. boulardii* is not for people with a central IV line or a weakened immune system.
- **Hives, swelling or trouble breathing** mean an allergy, not die-off: get help now. **Alpha-gal (red-meat) or milk allergy?** Skip Immune PRP Pro (cow's colostrum).
- **Doses are for adults.** Pregnant, nursing or under 18? Ask your provider first.

**Special considerations for you:**
